Accelerating Discovery

## Aurigene Discovery Technologies

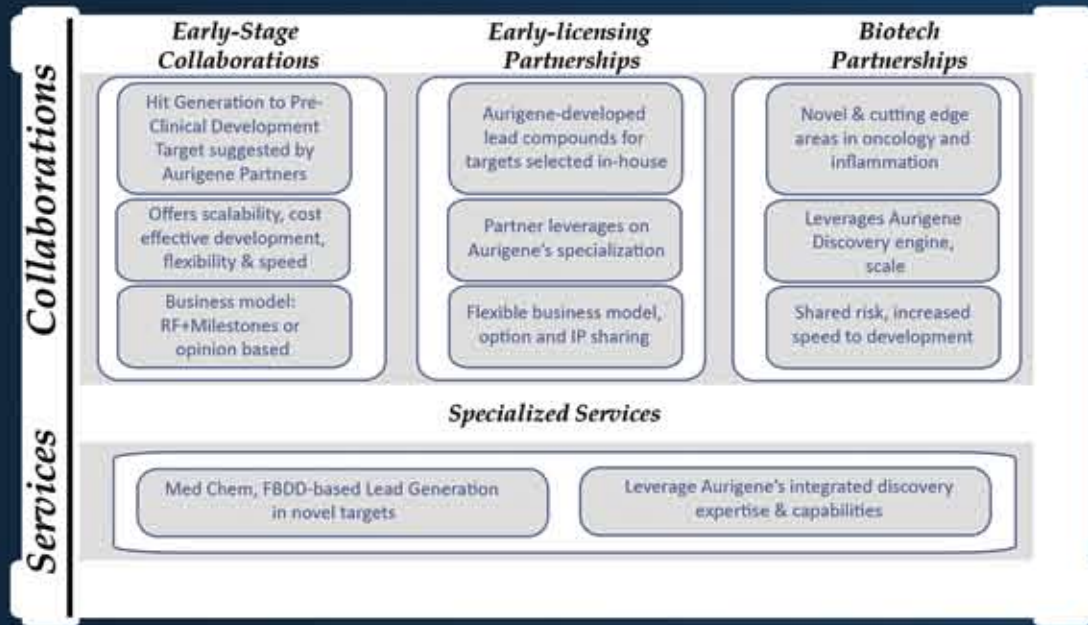

A specialized oncology & inflammation focused biotech

We aspire to be the most respected and valued biotech in India as exemplified through our high-quality pipeline of candidates in clinical development addressing unmet needs in Oncology and Inflammation.

**Aurigene** is a specialized oncology and inflammatory disease focused drug discovery biotech, with deep therapeutic area expertise and competencies. We have pioneered a unique, collaborative business model to work with pharma and biotech partners, in a partnership model that mutually leverages the strengths of Aurigene and its partners. Aurigene combines its partners' expertise, technology and experience with its comprehensive competencies in oncology and inflammation, combined with its locational advantages—innovative science, scalability, cost-effective execution— all translating into industry-leading turnaround time from Hit generation to Lead Optimization.

Based in Bangalore, Hyderabad and Kuala Lumpur, Aurigene has a fully integrated Drug Discovery infrastructure from Hit Generation to Pre-clinical development. We have partnered with 6 of the top 10 pharma companies in Discovery collaborations, apart from over 10 other industry leaders around the world, since 2005. Aurigene is a fast-growing, profitable company that has continuously invested in its people resources, infrastructure and expertise over the years. With about 575 scientists, Aurigene has developed deep expertise in various target classes, pathways and technologies with 35 discovery projects that have been prosecuted over the past 7 years.
